

# iMPS2 Enterprise

“The complete enterprise fax and email solution for your business”

*Fax enable your applications, legacy systems and users with an iMPS2 Enterprise Fax Server*

## Why Choose The iMPS2 Enterprise Solution?

- Fax and email enable your entire network including iSeries and other legacy systems
- Fax directly from users desktops using your existing email server
- Full integration with MS Exchange, Lotus Notes and Groupwise Platforms
- Automate document workflow by routing inbound and outgoing faxes electronically
- Maintain a complete audit trail for all faxes sent and received by your business
- Reduce maintenance costs and improve efficiency by eliminating traditional fax machines from your business
- Support for faxing over IP. Send you faxes for free.

## IMPS2 Enterprise Overview:

The iMPS2 Enterprise provides a complete enterprise fax and email solution for all of your mid-range platforms, desktops and network clients.

This technology provides a total solution for all you midrange and desktop requirements using cutting edge software and the latest fax card technology. IMPS2 Enterprise also allows support for the latest fax over IP capabilities.

iMPS2 Enterprise is an enterprise-strength fax server solution for Windows. Designed as a multi-platform solution, it includes client software for virtually all enterprise desktops through Windows Desktop clients and Web Browser clients.

*“The International Presence Group has now been providing high-volume fax and messaging solutions to businesses around the world for over 23 years”*

**Glyn Davies, CEO  
International Presence Group**

For organizations wishing to integrate fax with their existing messaging systems, iMPS2 Enterprise provides seamless integration with all major messaging and email systems including Microsoft Exchange, Lotus Domino, Novell Groupwise, and all generic SMTP mail servers. A gateway to SAP systems, and programming interfaces for COM (Component Object Model) or Java developers are also available.

iMPS2 Enterprise provides comprehensive management and security options and integrates with enterprise systems management software. User and server usage analysis can be graphically displayed and a complete audit trail is maintained. iMPS2 Enterprise includes rules-based Global Routing functionality to least-cost-route faxes over a private WAN, via the Internet or to fax service-providers. iMPS2 Enterprise utilises market-leading Dialogic fax hardware.
